FIG. 3

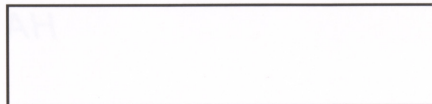

VAMPIRE MAKEUP APPLICATION

- A. Apply a thin, even coat of No. 19B makeup and pat gently to remove creases and fingerprints. Lightly dust with Colorset Powder and remove excess with Powder Brush (Figure 1).
- B. Using Black makeup, "hollow" facial bones to add angularity to the face. Follow cheekbone line with Black makeup from the front of the ear down toward jaw line. Feather the Black down to create a deep shadow effect (Figure 2). Draw straight lines from the tip of each nostril to form an arch over the outside corner of eyebrow (Figure 2). Outline eyes in Black. Accent frown lines between brows. Draw a line following natural creases from alongside nose to the corner of the mouth (Figure 2).
- C. Paint mouth Black, extending lines down at corners. Add a dramatically thick "fake" brow to forehead as in Figure 3. Accentuate temple area with Black makeup by outlining from hairline to sideburn area, leaving "peaks" at each temple (Figure 3). Gently powder fresh makeup area with Colorset Powder and brush off excess with Powder Brush.
- D. Draw in Blood dripping from mouth with R/B Red makeup (Figure 4). Complete the look with fangs, costume, Stage Blood and angry looking scowl!
