

FloorCrafter® Belt Sander

- Lighter overall weight
- Increased drum pressure
- Rigid frame for reduced vibrations
- Patented single tool level system
- Dolly Transport™ system

The FloorCrafter® upholds a long tradition of providing precision instruments to a craftsman's trade.

The FloorCrafter, engineered to be the most aggressive belt machine in the industry, is also designed to provide reduced vibration.

Its cutting ability gives the hardwood sanding professional the ability to increase production while achieving imperfection-free results. With the patented Dolly Transport™ system, the FloorCrafter is truly a unique and innovative approach to hardwood floor sanding.

The FloorCrafter® sets the bar for all other belt sanders.

Because Pride Still Matters.

A Nilfisk-Advance Brand

Clarke®
American Sanders

A Proud History of Innovation and Integrity

Since 1903, American and Clarke Sanders have been known as the workhorses of the hardwood floor industry. At Clarke American Sanders, innovation and ingenuity have become the words to live by.

The FloorCrafter® upholds a long tradition of providing precision instruments to a craftsman's trade.

The FloorCrafter was designed to meet the needs of the hardwood floor professional with an overall lighter machine, reduced vibration to assure reduced imperfections, and more aggressive cutting for increased production.

These benefits, combined with unmatched "out of the box" quality, provide the professional hardwood floor sander a product that works every time.

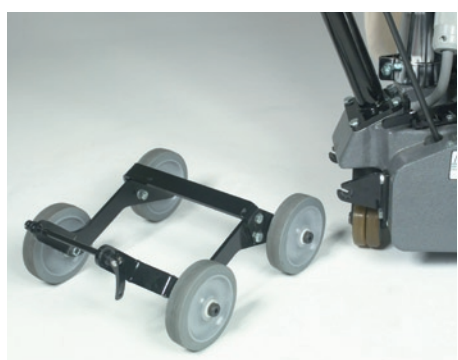

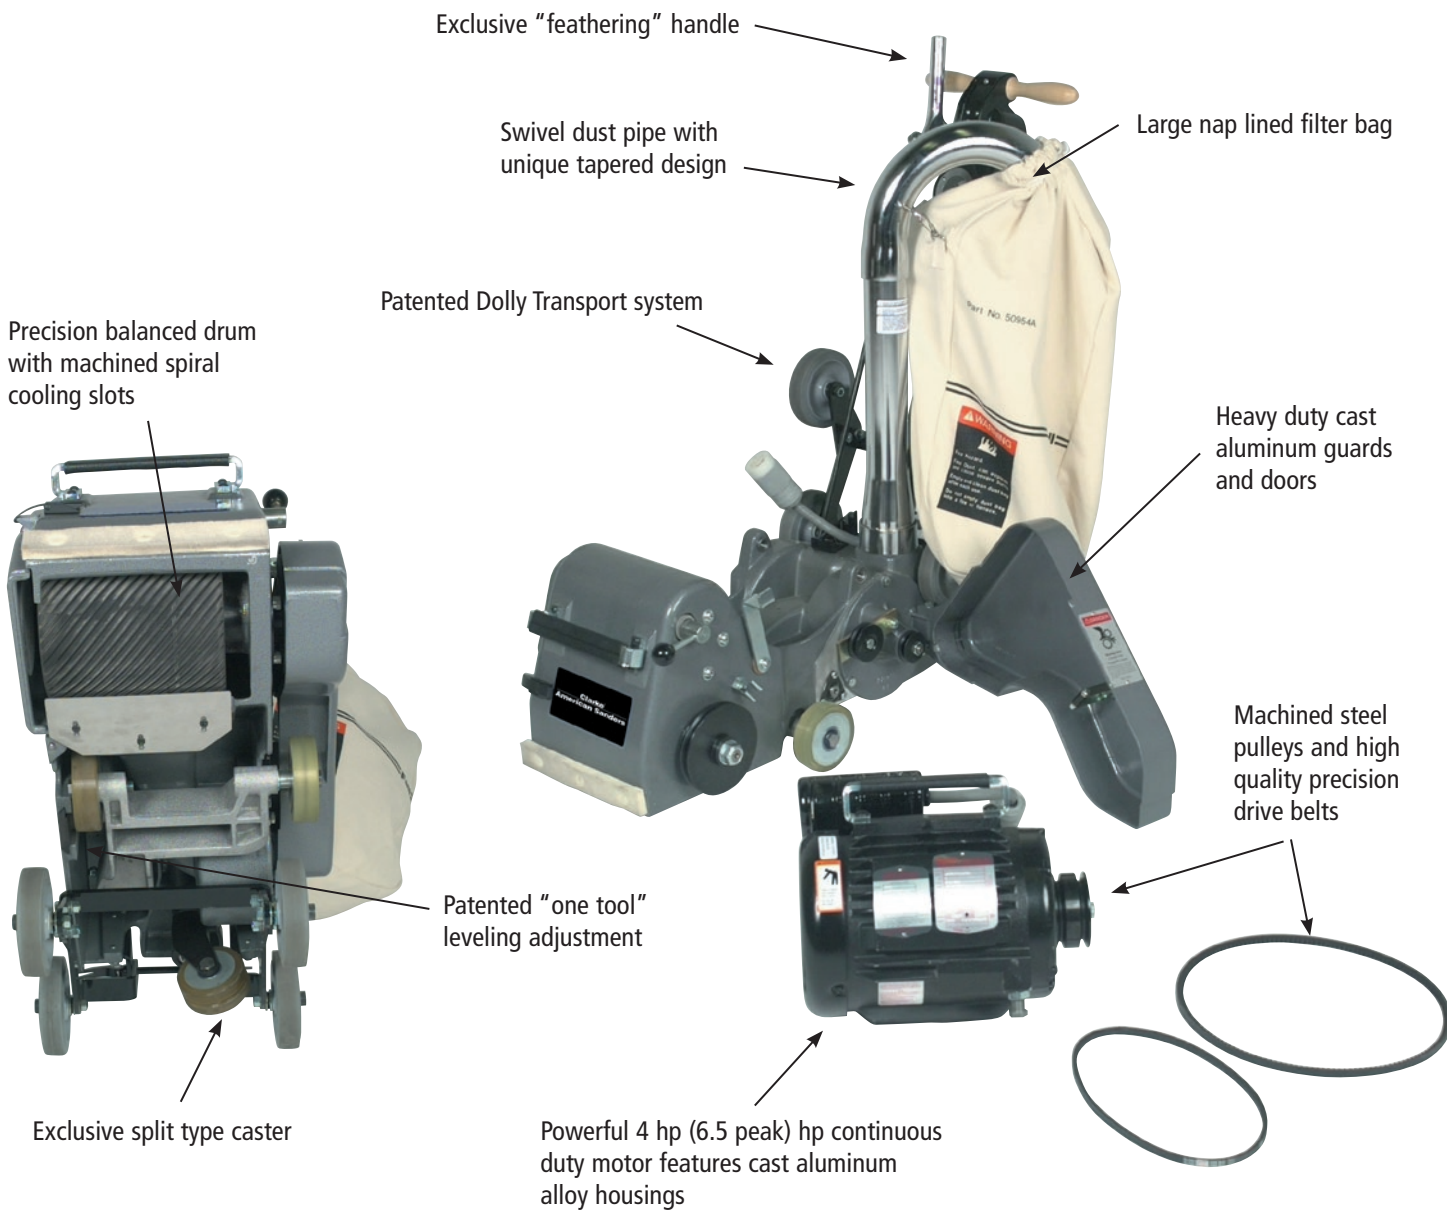

The Complete FloorCrafter Package - a unique and innovative approach to hardwood floor sanding.

The quick release drive belt tension system eases disassembly and storage.

The recessed drum door provides better air seal and eases abrasive installation and adjustments.

The patented Dolly Transport™ system makes transporting the FloorCrafter to job sites easier than ever.

A unique transport platform bolts into vehicles for easy storage and transport.

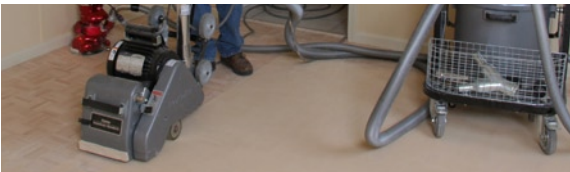

The exclusive tool set provides all tools needed for routine set up and adjustments.
