

The 2-in-1 time saver

This unique '2-machines-in-1' concept is now a reality in the form of the Nilfisk HSC 585 MULTI. The net result of this latest Nilfisk innovation is a massive increase in productivity, and significant savings in the cost of professional cleaning.

Deep cleaning tiles, and more importantly the grout between tiles, is now a simple one-pass operation. The machine sprays high pressure (85 bar) cold water and immediately vacuums the residue, to leave a clean, dry surface. A simple tool change then allows the HSC 585 Multi to be used as an efficient hot water carpet extractor.
