

### Wet or Dry - demonstrating power

The SQ 850-11 features an 80 litre container, an external filter cleaning handle and powerful 2 motor performance on a robust steel frame and a built-in drain hose for high volume wet vacuuming applications. Also includes the SoftStart system, and the dirty filter indicator.

Select one motor, or two for the ultimate in Wet & Dry performance versatility.

Mobility is a feature often overlooked, but not in the SQ 8 with large wheels and a comfortable, sturdy handle for moving the machine from task to task.

And the corrosion-proof container ensures durability and long life, while the cyclonic vacuum inlet reduces the frequency of filter cleaning.

### PRODUCT FACTS

- ⌘ 2 motors for high suction performance.
- ⌘ Corrosion proof, 80 litre container.
- ⌘ Robust steel frame with Impact Guard all around.
- ⌘ Dirty filter indicator.
- ⌘ Externally operated manual filter cleaning system.
- ⌘ Industrial Wet & Dry performance.
