

Single-pass carpet cleaning

GU 350A is designed to lay completely flat so you can reach areas without moving furniture. The machines operate extremely quietly and are therefore ideal for cleaning in hospitals, hotels, conference centres and for daytime cleaning in offices.

Nilfisk GU 350A is the upright solution to daily vacuum cleaning of carpets. It is as powerful as it is convenient with a cleaning path of respectively 350 mm. Separate motors drive the brush and the vacuum, which provide high performance and durability for in depth carpet cleaning. The machines are also fitted with tools for cleaning furniture, shelving, walls and curtains
