## NATIONAL STARCH AND ADHESIVE....

### STUCK ON NON-SLIPS FLOOR SAFETY PROGRAM

*“ It had to be a multi-pronged attack. We came up with solutions to a number of problems encountered in this diverse company .Non-Slips depth and experience won out, and another successful job was completed with minimum disruption, and maximum results.” – Jay Ganatra C.E.O. – Non Slip Floors*

*Twelve years of service was starting to show on the checker-plate floors. Not only was the system antiquated, the surface was due for a much-needed overhaul. Non-Slips solution was to apply Flowcrete Epoxy on the checker-plate surface and Polyurethane Concrete on the safety walkway.*

*Flowcrete Epoxy not only rejuvenated the worn-out floor, but also provided a non-slip surface for the safety of the workers.*

**sure grip** *Making the world a safer place... One step at a time.*

Slippery floor surfaces in the workplace affect productivity and compromise employee safety. Reassure your staff with the 'Sure-Grip Floor Safety Program', exclusive to Non-Slip Floor Solutions.

**Don't Slip... Non-Slip.**
