## ECR750 / ECR1300 / ECR1500

700W / 1300W / 1500W Electric Motorbikes

### ECR750

With great torque and real outdoor rubber tyres, as with all our children's bike ranges, these are not your traditional ride on toys.

Solidly built and simple to maintain, the bike will deal with grass, gravel, concrete and even light off-road.

Riding is simple and easy with no gears, it's fully automatic, so just twist the throttle and away you go.

The build quality and parts quality is very important to how much maintenance is required. This Dirt Bike has been specified for quality and reliability.

AVAILABLE IN: ■ ■ ■ ■

### ECR1300

This ultimate kids toy has just been unleashed. Bigger, stronger, and better specification than any other electric mini dirt bike before.

The batteries are Lithium which are much lighter than lead-acid batteries, last longer and charge up quicker. Top speed will surpass 25Kph. With that performance, you'll also be grateful for the high specification, light-touch front and rear hydraulic brakes.

Almost silent, this bike will offer hours of riding. Height, Weight & Skill should be considered when choosing a bike for your youth. Solidly built and simple to maintain, the bike will deal with grass, gravel, concrete, and even gentle off-riding.
