SONITA MEDIC INSTRUMENT CLEANING BRUSHES

Sonita Medic Instrument Cleaning line is designed to provide you with the brushes needed to clean your surgical instruments. Our wide variety of cleaning brushes ensures you and your

team have the right brush at the right time. With bristles available in nylon, brass, copper or stainless steel, we also provide an incredible variety of lengths and diameters to fit your needs.

Our instrument cleaning brushes and toothbrush-style cleaning brushes are now designed with an antimicrobial agent embedded into the nylon bristles, preventing the growth of bacteria on the bristles.

SONITA MEDIC IDENTIFICATION TAGS

■ Locking Tags

Help identify instruments, trays & carts. Indicate special handling instructions, secure trays and carts from tampering and quickly identify priority instruments for repair and sterilisation.

■ Breakaway Tags

Available in a range of colors and can be written on with a permanent lab marker. They must be cut or broken to open, providing a secure lock.

■ Write-On Tags

Allow you to write specific handling instructions on each tag when more detailed communication is necessary.

■ Smart Tags

Smart Tags include detachable barcodes for even easier follow-up.

■ Scope Tags

Designed specifically with the needs of scope processing and care in mind. Perfect for recording important details .

■ Metal Tray Tags

Easily clip onto the edge of a tray and provide ample space for identification, tracking & barcoding needs. Stainless steel for durability.

Lab Markers & Cable Ties

Lab Markers:

Ink is waterproof, alcohol resistant and compatible with steam & gas plasma sterilisation.

Cable Ties:

Ties are compatible with steam and gas plasma sterilization. Not made with natural rubber latex

- A: RT-100P
- B: RT-100P-BL
- C: RT-100P-GR
- D: RT-100P-RE

• ET-104-1	Red- BIOHAZARD	33cm (13.25 inch)	3.8cm (1.5 inch)

Scope Tags:
 Double-sided tags designed to attach to a scope to identify process dates, ensuring scopes are used within the appropriate time frame or sent for re-processing. These tear-resistant tags are available in seven bright colors for easy color coding and include the month, day and date selection (1-31) on one side of the tag. Compatible with steam and gas plasma sterilisation. Latex-free. Single use.

** Each package includes 100 tags and 1x lab marker (ink is waterproof, alcohol resistant and compatible with steam and gas plasma sterilization)

IDENTIFICATION TAGS - Scope Processing Tags (100/pkg)

ET-200

Scope Processing Tags:

Double-sided tags designed to attach to a scope to identify process dates, ensuring scopes are used within the appropriate time frame or sent for reprocessing. Tear-resistant. Great for capturing more detailed information regarding scope reprocessing such as scope model #, leak test (pass/fail) and hang date and time. Features a location for affixing a barcode for additional tracking. Compatible with steam and gas plasma sterilisation. Latex-free. Single use.

Metal Tags:

Stainless steel tags easily clip onto the side of a tray or container. Flat surface allows for placement of barcode, label or other identifying instructions. Available in five sizes. Reusable. Sterilisable.

SELF-SEAL STERILISATION POUCHES - Paper/ Film

- Pre-folded & assure quick and secure closing without a heat sealer.
- Made from 60/70gsm medical grade paper with technic 60gsm/70gsm and transparent CPP/PET multi-layer copolymer.
- Effective barrier against germs and bacteria.
- Peel-easy film allows film to be separate from paper with no shatters.
- Clear & accurate indicator colour change.
- Triple band seal for higher package integrity which effectively avoid crack.
- Best suited for use in small general practices, gental surgeries and for users who want to avoid additional costs of sealing devices.

◊ Sterilisation Colour Change

Change to **BLACK** from **BLUE** under steam sterilisation

■ Steam Indicator before sterilisation : **BLUE**

■ Steam Indicator after sterilisation : **BLACK**

■ EO Indicator before sterilisation: **PINK**

■ EO Indicator after sterilisation: **YELLOW**

◊ Standards

Comply with FDA, EN868, ISO11607 & ISO11140-1 standards.

- Universal packaging solution for sterilisation applications.
- Reliable & effective protection against bacteria and germs.
- Flat & gusseted type and wide range of standard sizes available.
- Constructed from medical grade paper & transparent CPP/PET multi-layer copolymer film.
- Two water based, non-toxic process indicators (for steam & ethylene oxide sterilisation) imprinted on the paper surface which prevents instrument from coloured and help to differentiate between processed and unprocessed packages.
- Tear, fibre free opening & apsetic presentation.
- Triple band seal for higher package integrity which effectively avoid crack.

Standards

Comply with FDA, EN868, ISO11607 & ISO11140-1 standards.

CHEMICAL INDICATOR TAPES

- Ideal solution for closing all wrapping materials.
- Constructed from pressure semi-crepe paper.
(one side- adhesive glue; the other side- indicator strip)

- Process indicator ink shows an easy & accurate colour change and indicates if the pack has been processed.

- Design for steam, EO.Gas, Plasma & Formaldehyde sterilisation processes and also provide a clean peel from the wrapping material.

◊ Sterilisation Colour Change

Steam Indicator Tape	EO Indicator Tape
<ul style="list-style-type: none"> ■ Steam Indicator before sterilisation : BEIGE ■ Steam Indicator after sterilisation : BLACK 	<ul style="list-style-type: none"> ■ Steam Indicator before sterilisation : RED ■ Steam Indicator after sterilisation : GREEN

◊ Standards

Comply with EN867 & ISO11140 standards.

Description	Code	Size	Pack (Rolls/Ctn)	Colour Change
Steam Indicator Tape	● KMNST-1950	19mm x 50m	48 rolls/ctn	Turn to BLACK (processed) from BEIGE (unprocessed) under sterilisation.
EO Indicator Tape	● KMNET-1950	19mm x 50m	48 rolls/ctn	Turn to GREEN (processed) from RED (unprocessed) under EO Gas sterilisation

CHEMICAL INDICATOR STRIPS

- Manufactured in absence of lead or other heavy metals.
- Process indicator ink shows an easy & accurate colour change and indicates if the pack has been processed.
- Designed for steam & EO.Gas, sterilisation processes.
- Constructed from special card, standard colour patch & indicator strip.
- All chemical indicator strips are available on OEM & ODM.

Steam Indicator Strips

■ CLASS 4

■ CLASS 5

■ CLASS 6

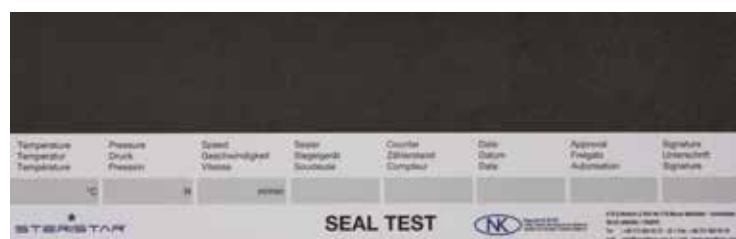

EO Indicator Strips

Standards

Comply with EN867 & ISO11140 standards.

Description	Code	Size	Pack (Pcs/Box)	Colour Change
Steam Indicator Strip	● KMNSC-CLASS4	15mm x 100mm	200 pcs/box	Turn to BLACK from BLUE.
	● KMNSC-CLASS5	20mm x 140mm	200pcs/box	Turn to DARK BLUE from LIGHT BLUE.
	● KMNSC-CLASS6	20mm x 108mm	200pcs/box	Turn to BLACK from BEIGE.
EO Indicator Strip	● KMNEC-CLASS4	15mm x 100mm	200pcs/box	Turn to RED from BLUE under EO Gas sterilisation

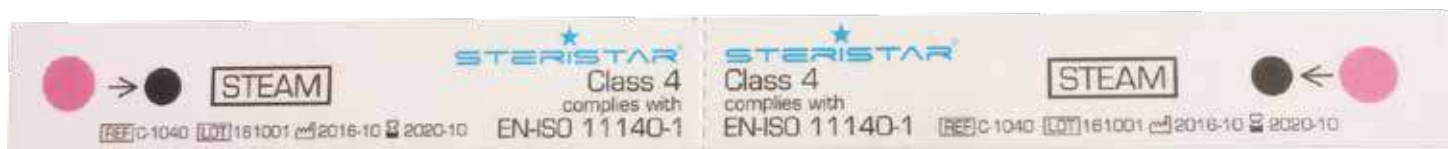

SEAL TEST

- Designed for routine control to sealing medical heat sealers.
- Easy to use.
- Clear and visible indicator filed of seal test.
- Cost effective.

Description	Code	Size	Pack
Seal Test	● C-1001	6 x 20cm	100 test/ pack 100 pcs / ctn

CLASS 4 STEAM INDICATOR DUAL STRIPS

- Designed for steam sterilisation at 134 degrees 3.5 min.
- Dual strips can be divided into 2 pieces.
- Water-based, non-toxic, leaf free indicator.
- Clear and accurate colour change from **PINK** to **DARK** colour.

◇ **Standards** :
Comply with ISO11140 standards.

Description	Code	Size	Pack (Pcs/Ctn)	Colour Change
Class 4 Dual Strips	● C-1040 (250pcs x2)	1.5 x 15cm	100 pcs/ carton	Turn to DARK colour from PINK .

CLASS 6 EMULATING STEAM INDICATOR STRIPS

- Designed for steam sterilisation at 134 degrees 3.5 & 7min.
134 °C- 3.5 minutes
137 °C- 7 minutes
- Multi parameter indicator showing accurate results.
- Water-based, non-toxic, leaf free indicator.
- Clear and accurate colour change from **PINK** to **DARK** colour.

◇ **Standards** :
Comply with ISO11140 standards.

Description	Code	Size	Pack (Pcs/Ctn)	Colour Change
Class 6 Emulating Steam Indicator Strips	● C-1035	2.5 x 6.5cm	250 pcs/ carton	Turn to DARK colour from PINK .
Class 6 Emulating Steam Indicator Strips (SELF ADHESIVE)	● C-1035SA	2.5 x 6.5cm	250 pcs/ carton	Turn to DARK colour from PINK .

H₂O₂ PLASMA INDICATOR STRIPS

- Designed for H₂O₂ (Gas Plasma) sterilisation process.
- Water based, non-toxic, lead free.
- Clear and accurate color change from purple to green.

FORMALDEHYDE CHEMICAL INDICATOR STRIPS

- Designed for Formaldehyde steam sterilisation process.
- Water based, non-toxic, lead free.
- Clear and accurate color change from orange to green.

◊ **Standards** : Comply with ISO11140 standards.

Description	Code	Size	Pack (Pcs/Box)	Colour Change
H ₂ O ₂ Gas Plasma Indicator Strip	• C-1080	65mm x 25mm	250 pcs/box	Turn to GREEN from PURPLE.
Formaldehyde Chemical Indicator Strip	• ST-20	65mm x 25mm	250pcs/box	Turn to GREEN from ORANGE

SELF ADHESIVE DOCUMENTATION LABELS

C-1003 3 Lines Handlabeler

- Highly effective and accurate.
- Traceability with less cost and effort.
- 3 lines as : USER ID, BATCH NO, STERILISER NO, PRODUCTION DATE, EXP DATE

Description	Code	Size
3 Lines Handlabeler	• C-1003	
STEAM Self Adhesive Documentation Label	• C-1004	26 x 28mm

C-1004

BOWIE-DICK TEST PACK/ PAPER

- Pre-assembled, single use test packs.
- An indicator sheet printed with water based, non-toxic chemical indicator.
- Colour change from blue to black after steam sterilisation indicates all air was removed and replaced by steam.
- Easy-to-read test sheet with detailed instructions for use and interpretations of results.
- External process indicator for ready identification of processed test packs.

◊ Sterilisation Colour Change

Turn to **BLACK** from **BLUE** under steam sterilisation.

◊ Standards

Comply with EN867-4, ISO11140-1 & ISO11140-4 standards.

Description	Code	Size	Pack (Pcs/Ctn)	Colour Change
Bowie-Dick Test Pack/Paper	● KMNBD	115 X 125mm	100 pcs/ctn	Turn to BLACK from BLUE .

BOWIE-DICK TEST PACK

BD200 / BD400

Test Sheet

- Easy to use.
- Disposable Single Use pack
- Reduces likelihood of misinterpretation
- Manufactured in the absence of lead or other heavy metals.
- Eliminates concerns over exposure to lead or other heavy metals.
- Test card can be used for recording purpose.
- A uniform colour change from pink to dark colour on the indicator sheet allows a clear interpretation of result.
- Comply with ISO 11140-4 Class 2 standards

Description	Code	Size	Pack (Pcs/Ctn)	Colour Change
Bowie-Dick Test Pack	● BD-200 (200 barrier sheets)	12.5 X 12.5cm	80 pcs/ctn	Turn to DARK colour from PINK .
Bowie-Dick Test Pack	● BD-400 (400 barrier sheets)	12.5 x 12.5cm	60 pcs/ctn	Turn to DARK colour from PINK .

STEAM BIOLOGICAL INDICATOR

- Designed for monitoring steam sterilisation processes.
- The presence of *Geobacillus stearothermophilus* spores is detected by a visual colour change (media turns yellow).
- The yellow colour change indicates a sterilisation process failure.
- The final readout of a negative result (media remains purple) is made after 48 hours of incubation.

Description	Code	Size	Pack (Pcs/Box)	Colour Change
Steam Biological Indicator	● KMNBI	10.5cm*7.0cm*7.5cm (box size)	24pcs/ box	PURPLE to YELLOW

HELIX TEST & PCD

HELIX TEST & PCD

- Helix Test PCD Test (process challenge device) is used as a daily test for pre-vacuum hospital sterilizers and for bench top steam sterilisers Class B for steam penetration and inert gases.
- The EN 867 Part 5 is describing a Helix PCD based steam penetration test as an alternative for the Bowie & Dick Test for bench top steam sterilisers.
- An excellent test to detect even the smallest amounts of inert gases and steam penetration capabilities.
- It can also be used to ensure maximum steam penetration where hollow instruments, or instruments with small lumina, are concerned.

Code	Description	Pack
● C-1030	Helix Test Pack (Single Pack)	25 strips/ sheet, 10 sheets/ pack
● C-1031	PCD Helix Tube	1 pcs/ pack
● C-1032	B&D Test for Helix	25 strips/ sheet, 10 sheets/ pack

WASHER CLEANING EFFICIENCY TEST

WASHER DISINFECTOR EFFICIENCY CONTROL TEST (Stainless Steel)

- Stainless steel.
- Test soil simulate to human blood.
- For daily control and validation.
- User-friendly.
- Comply with ISO 15883-1 standards.

C-1060

C-1062

Description	Code	Size	Pack
Washer Disinfector Efficiency Control Test	● C-1060	0.5 x 2.5 cm	100 pcs/pack
Washer Disinfector Efficiency Control Test PCD (Stainless Steel)	● C-1062	5 x 7cm	100 pcs/pack

ULTRASONIC & WASHER TEST

C-1061

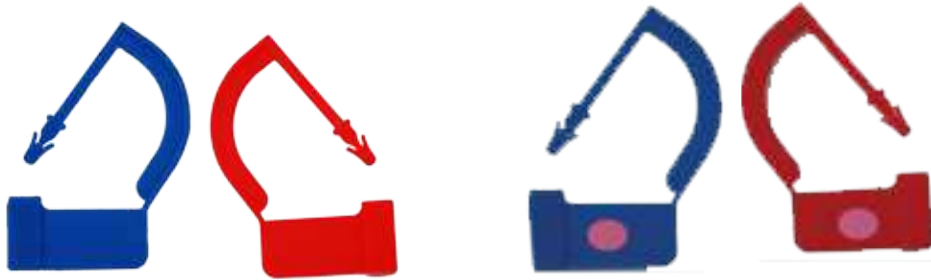

C-1063

- Cost-effective.
- Easy to save records.
- For ultrasonic and washer use.
- User-friendly.
- Comply with ISO 15883-1 standards.

Description	Code	Size	Pack
Ultrasonic & Washer Test PCD (Plastic)	● C-1061	4.8 x 10cm	100 pcs/pack
Ultrasonic & Washer Test PCD (Stainless Steel)	● C-1063	5 x 11cm	100 pcs/pack

PLASTIC CONTAINER SECURITY SEALS

(Plain or With Indicator)

Description	Code	Size	Pack
Plastic Container Security Seals (Plain)	● C-1070 Blue	27 x 50mm	100 pcs/pack 50 pack/ctn
Plastic Container Security Seals (Plain)	● C-1071 Red	27 x 50mm	100 pcs/pack 50 pack/ctn
Plastic Container Security Seals (With Indicator)	● C-1072 Blue	27 x 50mm	100 pcs/pack 50 pack/ctn
Plastic Container Security Seals (With Indicator)	● C-1073 Red	27 x 50mm	100 pcs/pack 50 pack/ctn

SELF ADHESIVE CONTAINER SEALS

CONTAINER LABELS WITH STEAM INDICATOR

Description	Code	Size	Pack (Pcs/Pack)
Self Adhesive Container Seals with Steam Indicator	● C-1074	30 x 140mm	100 pcs/pack
Container Labels with Steam Indicator	● C-1075	67 x 38mm	100 pcs/pack

CONTAINER PAPER FILTERS

- Made of high-quality materials for a variety of rigid container systems.
- Form a reliable germ barrier .
- Two types- round / rectangle.
- Single Use.
- Comply with ISO 11607-1 standards.

Round / Rectangle Container Paper Filters

Description	Code	Size	Pack (Pcs/Pack)
Round Container Filter with Steam Indicator	● C-1077	190mm	100 pcs/pack
Rectangle Container Filter with Steam Indicator	● C-1078	118 x 235mm	100pcs/pack

WRAPPING MATERIAL CREPE PAPER - 60/70/80/90g

- Made of 100% medical quality cellulose fibres.
- Great packaging solution for lighter instruments and sets.
- Can be used as both inner & outer wrapping.
- Suitable for steam sterilisation, ethylene oxide sterilisation, Gamma ray sterilisation, irradiation sterilisation or formaldehyde sterilisation in low temperature.
- Excellent water resistance and bursting strength.
- High bacterial filtration efficiency (BFE)
- Four options - 60g standard/ 70g medium/ 80g heavy/ 90g extra heavy.
- Three colours available- blue, green, white.

◊ 60g Standard Crepe Paper

Code	Sizes	Pack (Pcs/Box)
● KMCP-5050-60	50cm* 50cm	1000 pcs
● KMCP-6060-60	60cm* 60cm	1000 pcs
● KMCP-7575-60	75cm* 75cm	500 pcs
