

LION

POWER FREERIDE • TWIN CAM • NARROW SLEEVE

The Ezzy Lion is our twin-cam, power-freeride sail.

Unlike many wide-sleeved, cambered sails on the market, the Lion's sleeve is just narrow enough to make waterstarting and uphauling easy.

We replaced the vinyl with a dyneema-reinforced window that increases stability in high winds and dramatically improves the transfer of wind energy into board speed.

You can remove either the top or bottom cam to create a

single-cam freeride experience. And even use the Lion without the cams—the flatter shape of the Lion without cams works great for learning to foil.

In our factory, we rig and inspect every single Lion and then calibrate the downhaul gauge, so you can find the perfect downhaul every time you rig.

Designed for easy speed and built to last, the new Lion continues the long lineage of Ezzy freeride sails

Size m ²	Luff		Boom		No. of Battens	No. of Cams	Suggested Mast
	Min	Max	Min	Max			
6.0	445	448	182	189	6	2	430/25/21
6.5	455	458	190	198	6	2	430/25/21
7.0	466	469	196	204	6	2	460/25/26
7.5	476	479	204	212	7	2	460/25/25
8.5	501	504	221	229	7	2	490/26/29
9.5	513	516	238	247	7	2	490/26/29
